

Cambodia

Cambodia fact sheet

The first confirmed case of coronavirus (COVID-19) was reported on 27 January. As of 15 June 2020, there have been 128 confirmed cases and 0 deaths in Cambodia.

“Teb Borey is a child partner and she is also a volunteer teacher. During COVID-19, all schools were closed to maintain the children’s safety and this required all of them to study at home. Borey volunteered to share information about how to prevent COVID-19 in the village by calling people in the community. When she had free time, she also taught other neighbours’ children how to wash their hands and taught them how to do mathematics and study!”

- Khun Sophea, who is a children’s facilitator for our partner FH Cambodia.

Impact

Youth are volunteering to support children access education material digitally and via the radio. Thank you for investing in young leaders! (FH)

Youth and children are continuing to share awareness about hand washing and good hygiene within their communities. Thank you for equipping children and youth to be agents of change! (FH)

Your local partner, ICC, has developed health and hygiene messages that they are sharing on the radio. Thank you for ensuring important health information is accessible to vulnerable communities!

Preparations are being made to be quick to act if a second wave hits. Thank you for ensuring our partners are able to swiftly adjust their responses! (PNKS)

Prayer

Dear Lord,
We give thanks that Your heart is with the poor and the vulnerable. We pray for your constant protection and intervention in vulnerable communities - especially Syrian refugee families living in informal settlements. And please continue to use us to be salt and light in this broken world.

Bible verse

“Then you will call upon me and come and pray to me, and I will hear you. You will seek me and find me, when you seek me with all your heart.”

Jeremiah 29:12-13
