Australia loves sports - football, netball, Aussie Rules, rugby, cricket... My favourite team sports are soccer and basketball. In the game of soccer, there are of course various positions for each team. But if one team is full of strikers they won't win the game, and another team with just defenders also will not win the game. The game requires all sorts of different skills and a great team has a diverse mix of players and skills in different positions. Some players may get more recognition than others, but without their team they can do nothing. Teamwork is the key! The better the teamwork, the better the team's performance. The same of course goes for churches. Churches are already a diverse community with different skills and abilities and it is amazing to see when so many different people are gathered for one purpose and vision. Many other groups and organisations can gather together for one purpose, often focused on money, honor, or power. But the higher purpose of our unity is to bring glory to God and proclaim the gospel of Jesus. Despite many problems both big and small we may find along the way, greater power is displayed when teamwork is practised in the community. When a community is united by the blood of Jesus Christ, it creates amazing things. Through today's text, we look at the important things we need to know about how the church community practices unified teamwork.

Yours in Christ,
David Choi

The Ministry of Education has issued a notice for schools and colleges to be prepared to reopen, sometime after 4th Feb. There is a list in the newsletter, from David Halder, of guidelines necessary to make that as safe as possible. Currently they have 381 children at the Home. They are very happy that almost all of the kids have returned. They are waiting on 84 to return to have a complete number come back. All children and staff are doing well. Please pray for the children & staff as the situation unfolds. By mid-February they are planning to open their Joy Hostel. By the end of last month Bangladesh was to receive 6.2 million COVID Vaccines. The authorities chose the Oxford-AstraZeneca vaccine, manufactured by the Serum Institute of India, because of it's ease of transportation, preservation requirements & availability. From January 28th Health workers were to be prioritised and kept under observation for a week as per the World Health Organisation guidelines. The authorities plan to program giving the shots in the first fortnight of each month. It will take around a year to vaccinate 150 million people. David also asks for prayer for his brother Nathan in Sydney who has 3rd degree burns on his right arm.

ELDERS UPDATE –

Psalm 31:15 says that "my times are in your hands" and so we continue to engage with the Association believing that God will lead us to a person He is preparing for us as an interim pastor. Please pray that God will oversee the discussion that we are having about an interim Pastor.
